**SAFETY TUBS®, THE LEADER IN WALK-IN BATH TUBS,
NAMED 2007 MOST VALUABLE PRODUCT BY *BUILDING PRODUCTS* MAGAZINE**

Charlotte, NC – June 11, 2007– Safety Tubs®, the industry leader in quality walk-in bathtubs, has been honored with the 2007 Most Valuable Product (MVP) award from *Building Products* magazine. A panel of builders, remodelers, multifamily developers and architects reviewed hundreds of products in eight categories, kitchen and bath, interior and exterior, tools and equipment, windows and doors, construction and high tech products, to name its MVPs.

Safety Tubs® created the first acrylic walk-in bathtub, which features a built-in chair-height seat and deep soaking dimensions. Its high-gloss acrylic finish makes Safety Tubs resistant to stains, cracking, mold and bacteria.

The panel evaluated products based on the ease-of-use, forward-thinking, cost-saving and the ability to provide ‘value’ to the building and remodeling community. “Each of these products will make a strong impact on the way builders and remodelers do their job,” says Jean Dimeo, Editorial Director of Building Products Magazine and eBuild.com. “From improving efficiency to cost-savings, the winning products represent the best new products to enter the housing industry over the previous year.”

“It’s an honor to receive such a prestigious award and a testament to the relationships we built with industry professionals, especially those in the field of assisted living facilities,” said Rob Buete, President of Safety Tubs. “Our product consistently receives rave reviews from the customer, wholesalers and building professionals.”

About Safety Tubs®, LLC

Safety Tubs® is a leading manufacturer of quality walk-in bathtubs and the only manufacturer of acrylic walk-in bathtubs. Every Safety Tub® is made in the USA to ensure that it meets the company’s stringent quality standards.

Manufacturers submit a comprehensive application for each product to BUILDING PRODUCTS Magazine. Entries are then reviewed by a select panel of judges including builders, remodelers, multifamily developers, and architects. Products are evaluated on their own merit, rather than in competition to other entries and awards are granted based on ease-of-use, forward-thinking, cost-saving, and the ability to provide ‘value’ to the building and remodeling community. Only products launched during 2006 were eligible for consideration.

The BUILDING PRODUCTS Most Valuable Products will be featured in the July/August issue of BUILDING PRODUCTS magazine.

Published bi-monthly, BUILDING PRODUCTS, is the premier information source for builders and remodelers searching for what’s new in building materials and products. 60,000 high volume builders and remodelers count on BUILDING PRODUCTS for up-to-date information on the newest and best products in the industry.
