## FACT SHEET

**HEADQUARTERS:** Dallas, Texas

**KEY PRODUCT LINES:** Dedicated to creating products that allow individuals experiencing lessened mobility to retain their independence and dignity at home while bathing, Safety Tubs unique products include:

**Walk-in Bathtubs:** Cast acrylic tubs in various sizes meet the common bathroom configurations. Each tub offers industry-leading features including

- the Minute Drain™,
- built-in, chair-height seat
- T5™ Door System Technology,
- Hydro Massage Air Bubble System™ or Hydro Massage Jet System™,
- an exclusive Legs Only Massage™ option,
- chromotherapy, and
- an aromatherapy kit.

**Coming Soon:** New product offerings coming later in 2009 include cast acrylic tub surrounds, seated showers and new tub door configurations.

**HISTORY:** Established in 2003 by a team of dedicated industry veterans, the Safety Tubs mission – for the present and for the future – is to provide customers with feature-rich, walk-in bathtubs with the latest and most comprehensive therapeutic technology available. Each heat-molded acrylic tub represents a breakthrough in engineering and manufacturing. With deep soaking dimensions and an easy to maintain high-gloss acrylic finish, Safety Tubs listens to its customers to continually improve existing products by actively incorporating customer feedback into product design and development.
